FUND DESCRIPTION

The ETF seeks to provide long-term capital appreciation through the use of a multifactor approach while managing active risk. To achieve this, it invests primarily in equity and equity-related securities of large and mid-cap companies in global markets while delivering a significant reduction in the Carbon Asset Stranding Risk Exposure and ensuring that all constituent issuers meet pre-determined ESG standards.

BENEFITS

- Selects global securities using a multifactor approach
- Integrates environmental, social and governance (ESG) considerations
- Exclusion of issuers that own fossil fuel reserves
